I am suffering from Bronchial Asthma with difficulty in breathing and weakness, abdominal pain, chest tightness and chest pain.

I was posted to GGAS TSANYAWA in TSANYAWA LGA. I can't leave in this village because of my health condition.

They don't have Medical drug to treat me if I have my bronchial astham attack.

I have been on intranasal oxygen, ventoline, amilophilin, multivitamins, analgesics, hematinics with cardiac modulator.

All of this drug are not available in Tsanyawa Medical Centre.

I will really appreciate if my request for relocation is approved.

Yours, faithfully,
